

Call MSCA IF 2020 - Standard Fellowship

Organization Name / Department	FIDMAG Research Foundation	Web	https://fidmag.org/en/
Organization Type	Private Research Foundation with public mission		
Research field	Social and Human Sciences SOC - neurosciences		
Brief description of the institution	The FIDMAG Research Foundation works to improve the understanding and the treatment of major mental illnesses through basic and clinical research, paving the way for prevention, recovery and cure. FIDMAG's main interest is in the field of psychosis, with particular expertise in the area of neuroimaging.		
Brief description of the Group	FIDMAG consists of a core team of 20 individuals dedicated exclusively to research, who work in collaboration with a broader group of psychiatrists, clinical psychologists and health professionals in the Hermanas Hospitalarias network of hospitals in Spain. We also maintain collaborations with other institutions and universities, both nationally and internationally.		
Brief description of the Project	The focus of the project is the investigation of structural and functional imaging changes in severe mental disorders, specifically schizophrenia and major affective disorder, and the relationship of such changes to symptoms and cognition. For this we employ a range of state-of-the-art structural and functional imaging methodologies and techniques.		
Who can apply?	At the deadline for the submission of MSCA proposals (09/09/2020), the researcher: - will be in possession of a doctoral degree or have at least four years of full-time equivalent research experience. - must not have resided or carried out his/her main activities in Spain for more than 12 months in the 3 years immediately prior to the abovementioned deadline.		
Documents to supply	Deadline: 20 th July 2020 - Cover letter - CV, with complete contact details and research experience - Two references
